

Bowie State University's

Entrepreneurship Academy

The Entrepreneurship Academy's mission is to cultivate, develop and infuse entrepreneurial thinking and behavior among students to prepare them for success in a changing global landscape. It helps students create their own business opportunities or become innovators and problem-solvers at established companies. Ultimately, the academy strives to become the "go to" resource for entrepreneurship among Bowie State University faculty, students and alumni.

Bowie State University's Entrepreneurship Academy

This university-wide initiative is made possible by a team of faculty, Bowie State students, alumni, businesses and donors shaping the next generation of entrepreneurial leaders.

Cultivating Future Entrepreneurs

Through collaborations with groups like TEDCO, the Prince George's County Economic Development Corporation, the Service Corps of Retired Executives, the Small Business Development Center and the Network for Teaching Entrepreneurship, BSU and high school students build their entrepreneurial acumen. Three core goals provide the foundation for valuable learning experiences:

- **Infuse entrepreneurial thinking across disciplines**
 - Forums with entrepreneurs
 - Innovative class assignments
 - Faculty entrepreneurship development
- **Help Bowie State students launch businesses**
 - Idea development
 - Pitch competitions
 - Coaching and mentoring
- **Provide high school students with entrepreneurial activities**
 - Youth entrepreneurship programs and camps

Moving forward, community partnerships with the academy will continue to fuel student success.

Helping Students Launch Businesses

Ideation To Creation
