

Dear BSU Community,

I write today to share that Dr. Brian Clemmons, Vice President for Enrollment Management & Student Affairs, concluded his service to Bowie State University on Friday, May 22, 2026.

Since joining Bowie State University in July 2018, Dr. Clemmons has been an important member of the BSU family and played a significant role in advancing student success initiatives and strengthening the university's enrollment management operations. Under his leadership, the [Division of Enrollment Management & Student Affairs](#) supported critical functions that are central to the student experience and the overall success of the institution.

The Division of Enrollment Management & Student Affairs oversees a broad portfolio of areas essential to recruiting, enrolling, supporting and retaining students throughout their educational journey. These areas include admissions, financial aid, the registrar, student engagement, student conduct, counseling and wellness support, academic advising partnerships, retention initiatives, orientation and new student programs, and other student-centered services designed to promote persistence, belonging and academic achievement.

As higher education continues to evolve nationally, enrollment management and student engagement remain among the university's highest strategic priorities. These areas are vital not only to institutional sustainability but also to ensuring that Bowie State University continues to provide students with the support, care and opportunities they need to thrive academically, socially and professionally.

During this transition period, Ms. Danielle Epps, Assistant Vice President of Enrollment Management, will continue to oversee enrollment management operations and activities,

while Dr. Amani Jennings, Dean of Students, will serve as the primary point of contact for Student Affairs.

To ensure continuity of leadership and sustained momentum in these critical areas, the university plans to appoint an interim vice president to lead the division while we prepare to launch a national search during the fall semester for the next Vice President for Enrollment Management & Student Affairs.

Please join me in thanking Dr. Clemmons for his years of service and dedication to Bowie State University. We wish him continued success and all the best in his future endeavors.

Sincerely,
