One of the most dynamic concepts in post-secondary education today is Cooperative Education. Though there are many variations of this program, Cooperative

Education is basically an arrangement of combining study and work leading to the Baccalaureate Degree. The Cooperative Education student intersperses on-campus academic preparation with off-campus actual job experience. To implement Cooperative Education, a partnership is formed between the employer, University and the student. Some of the advantages and benefits of this partnership are as follows:

As a Co-Op student you will:

- Add relevance to your education
- Earn an income that will help defray tuition cost
- Receive academic credit
- Gain practical work experience in a job related to your major
- Work with professionals in your career field
- Discover if your career choice matches your interest and abilities
- Find the transition from college to a work environment easier after graduation

Types of Cooperative Education Programs

There are two types of Cooperative Education programs at Bowie State University that you can participate in.

Parallel Co-Op is like a part-time job. The student goes to school full-time and works each semester.

Alternating Co-Op is when the student alternates semesters between full-time work and full-time study.
