

# Online Classes vs In-Person Classes

Tekoar Jennette (Criminal Justice)

Department of Behavioral Sciences and Human Services, Bowie State University

## HYPOTHESES

Students who take online classes are more likely to cheat on tests than students who prefer in-person classes.

## RESULTS

Students who take online classes are more likely to cheat on tests than students who prefer in-person classes.

❖  $\chi^2 (12) = 6.12, p = .91$  NOT SIGNIFICANT

## PARTICIPANTS

- ❖ 44 Students
- ❖ 30 (68.2%) Women / 14 (31.8%) Men
- ❖ Average Age = 23.62
- ❖ Race
  - ❖ African American (N = 40; 90.9%),
  - ❖ Latino (N =; 4.5%),
  - ❖ Native American (N = 1.; 2.3%)
  - ❖ Biracial (N=1; 2.3%)

## MEASURES/ITEMS

- ❖ Course Preference:
  - ❖ IN PERSON = 13
  - ❖ HYBIRD = 11
  - ❖ ONLINE SYNCHRONOUS = 7
  - ❖ ONLINE ASYNCHRONOUS = 13
- ❖ Do you think it is wrong to cheat in a test:
  - ❖ NOT AT ALL WRONG = 2
  - ❖ A LITTLE WRONG = 5
  - ❖ SOMEWHAT WRONG = 5
  - ❖ PRETTY WRONG = 15
  - ❖ VERY WRONG = 17

## DISCUSSION

- ❖ Students appeared to equally have preferences for all types of course offerings (in-person, hybrid, online synchronous, online asynchronous).
- ❖ Most students (N=32 of 44) thought it was pretty wrong or very wrong to cheat on a test.
- ❖ There was no relationship between preferred course offering and attitudes towards cheating on a test.
