GRADUATE ASSISTANTSHIP APPLICATION GUIDELINES

Bowie State University Graduate assistantships represent a great opportunity to gain professional and academic experience in the student’s field of study. The assistantships are awarded to students who have demonstrated evidence of high academic performance.

Graduate assistants receive tuition remission and a monthly stipend (salary) to work 20 hours per week on assigned professional responsibilities at the posted units on campus. The assistantships are available in the various academic departments within the four Colleges: Arts & Sciences, Business, Education, and Professional Studies. The duties assigned to graduate assistants employed by the Graduate School and posted in various academic departments within the Colleges and relevant units on campus relate to collecting and processing research data for faculty members, honing plethora of relevant and related professional skills necessary to pursue a career in the student’s area of specialization. The duties assigned to graduate assistants employed by the Graduate School relate to special areas of research and consultancy. Offices on campus may employ GAs to help with administrative support functions. Responsibilities vary, as do the durations of appointments. Supervision is provided by the administrator or staff of the Office or department

The graduate assistants must be in good academic standing, and are expected to be enrolled in a maximum of 9 (nine) credit hours in each of the fall and spring semesters and may not register for more than 12 credit hours without the approval of both their supervisor and Graduate Dean. The tuition remission for graduate assistants covers only nine credit hours and any hours in excess should be paid for by the student. Graduate Assistantships are not automatically renewable and are dependent upon the assessment of work (GPA of 3.5) and classroom performance.
